

# MAGNI HOME COLLECTION

## PRODUCT CARE GUIDE

### **METALS**

Special care should be taken when cleaning or polishing metal products fabricated by Magni Home Collection.

For brass or bronze with a clear coat, use good furniture polish and a soft cloth.

All polished, antique, jitterbug & oil rubbed bronze finished Jewel, Roppongi, Guggenheim, Ovale and Glass House tables have clear coats.

For polished or stainless steel and jitterbug finishes, clean with window cleaner or stainless steel cleaner and a soft cloth. DO NOT use wax of any kind.

For powder coated products, clean with window cleaner and a soft cloth.

For buildup of fingerprints, use a household multi-purpose degreaser.

The above recommendation is for general cleaning purposes only, NOT for removing scratches, abrasion or for restoration of finishes.

ALWAYS wipe in a manner which follows the grain.

DO NOT under any circumstance use any lacquer thinners or acetone on metal parts.

### **CASEGOODS**

Special care should be taken when cleaning or polishing casegoods fabricated by Magni Home Collection.

High gloss finishes are automotive and therefore only need wax.

All satin and semigloss finishes need furniture polish/cleaner (example: Pledge), even if they are on silver leaf.

### **CAST BRONZE PIECES**

Special care should be taken when cleaning or polishing cast bronze products fabricated by Magni Home Collection.

Unless requested otherwise, Magni Home Collection cast bronze pieces are protected with wax and clear coats. These coatings are to greatly reduce the natural patina process.

General cleaning/dusting should be done with a soft dry cloth.

### **UPHOLSTERY**

As many of our items use material provided by clients we suggest contacting the supplier for maintenance and care instructions.

### **LIGHTING**

Special care should be taken when cleaning or polishing lighting fabricated by Magni Home Collection. Please refer to the materials listed above for the particular fixture based on the finish.
